

MonarchPress Prototype Component Categorization

Fully functional

- Standard content view page (Unregistered+)
- Favorite/like/notification widget (Registered+)
- Content editing (Contributor+)
 - Create new content
 - Edit existing content
 - Submit new/modified content and notify editor for review
 - Add tags/keywords to content
- Submission review (Editor+)
 - Receive notification
 - Approve and publicly publish
 - Reject and optionally return feedback
- Edit templates (Editor+)
 - Create, edit, or delete templates
 - Add a feed to a template
- Publish alerts or emergency information from mobile device (Editor+)

Partially functional

Fake/mock data

- User login (Registered+)
 - preferences
 - profile management
 - notification management
 - favorite content
 - location-based
 - topic/keyword
- Interactive content framework
 - Add interactive/visualization elements to content
- Feed Aggregation (Editor+)
 - Create, edit, or delete feeds
 - Add/remove Twitter usernames to a Twitter feed whitelist
 - Add/remove keywords (hashtags) to a feed.
 - Dynamic feed based on content tags or location
- User access control (Admin)
 - Add, remove, or modify users
 - Change user access level

Partial implementation

- Page editor (Editor+)
 - Grid based vs. drag & drop?
- Save contact information (do twitter, maybe email - ignore the rest)
- Twitter feed integration
- News feed integration

Eliminated from prototype

- Interactive elements on mobile
- Social media sharing widget
 - Google+
 - LinkedIn
 - reddit
 - Tumblr
- View others' contact information (Registered+)
- Upload content from mobile devices (Contributor+)
- Collaboration tools (Editor+)
 - Add multiple authors to content
 - Resolve conflicts between document versions
 - Revert to previous version of a document
 - Edit content as a secondary author (Contributor+)
- Access control/permissions modification for viewing others' contact information

Existing implementation

- Edit template source code (Editor+)
- Edit *any* existing content (Editor+)
- Delete any existing content (Editor+)
- Hide (without deleting) published content (Editor+)
- Social media sharing widget (Unregistered+)
 - Twitter
 - Facebook
- Contact newsroom via Twitter (Unregistered+)
- Post to curated Twitter feed via hashtag (use Twitter)
- Comments (Registered+)
 - up/downvotes
 - comment moderation (Editor+)
